314-731-3335 | 800-833-3335

All truth passes through three stages. First, it is ridiculed. Second, it is violently opposed. Third, it is accepted as being self evident - Arthur Schopenhauer

PERFECT PAPERLESS TELLER COMPLETENESS

As the bank customer makes a deposit the Deposit Slip is captured, the MICR line is read, the amount of deposit entered in the drop down calculator. A file is created for this transaction, subsequent documents are scanned with Check 21 criteria, MICR read, reconciled then added to this file. GL documents are embedded and available with a press of a button. Reconciliations meets all regulations.

SECURE REMOTE MERCHANT CAPTURE

For Commercial clients this unit replicates the banks teller software extending the security firewalls to create a closed-loop network. As Bill Gates has stated "On-line banking will only become secure when each on-line banking customer uses a dedicated computer exclusively for bank transactions"

Merchant transfers can be real time.

DENOVO BANK CHECK PROCESSING SYSTEM COMPLETENESS

Now Denovo bank planners can guide their clients in how to avoid the expense of backroom equipment and/or sub-contracted processing fees. This one unit can handle everything including 500 customer account files and ATM's. Plug in a portable terabyte drive for a 5,000 accounts capability.
